

Chartered Institute of Environmental Health (CIEH) Level 2 Award in Environmental Principles and Best Practice.

Duration: One day.

Course overview:

This course is accredited by the Chartered Institute and an examination is included in the course.

Many organisations have identified that tackling environmental issues can bring benefits to their business including reduced waste and utility costs, reduced liabilities and access to new markets and investors.

This qualification has been designed for all members of staff whose activities could have a significant impact on the environment, or supervisors or managers who are being introduced to environmental issues for the first time.

Course content:

Upon completion the delegates will have gained knowledge of:

- Environmental impacts and sustainability.
- Understanding environmental aspects and key terms.
- Principles of environmental law.
- Energy use and carbon management.
- Resource efficiency and waste minimisation.
- Water management.
- Identify the link between their jobs and a range of environmental impacts.
- Pollution prevention and emergency planning.
- Environmental management systems.
- Understand business benefits of adopting an environmental management system.

Successful completion will prepare delegates to look carefully at their own work activities and contribute to the organisations environmental management system.
