

Chartered Institute of Environmental Health (CIEH) Level 2 Award in Principles of Risk Assessment.

Duration: One day.

Course overview:

This course is accredited by the Chartered Institute and a multiple choice examination is included in the course.

This CIEH Level 2 Award Principles in Risk Assessment was created in response to industry requirements for all employees to be risk aware. Although not all employees will be expected to undertake risk assessments themselves, they may be asked to contribute to the process and will be expected to act always to protect their own health and safety and that of others. This qualification is designed to help improve the workplace culture for occupational health and safety by enabling learners to understand the basic principles of risk assessment.

Course content:

Upon completion the delegates will have gained knowledge of:

- Ability to contribute both to the maintenance of a safe work environment and to the process of formal risk assessment
- Understand the legal requirements for risk assessment
- Understand the principles of risk assessment including:
 - hazards, risks and control measures
 - the five steps of risk assessment
 - the hierarchy of control
 - risk assessment review and record keeping.

Successful completion will prepare delegates to look carefully at their own work activities and contribute to the organisations health and safety management system.
