

Fire Awareness.

Duration: Half day.

Course overview:

This course covers fire prevention, means of escape, detection and warning systems. Also covered is the safe storage of chemicals and Highly Flammable Liquids (HFL) and Liquid Petroleum Gas (LPG) Regulations.

Course content:

Upon completion the delegates will have gained knowledge of:

- Fire prevention.
- Regulatory Reform (Fire Safety) Order 2005 and Workplace Regulations.
- Detection and warning systems.
- HFL and LPG Regulations.
- Chemical storage.
- Fire extinguishers.

Successful completion will raise delegates awareness of the risks associated with fire in the workplace and help prepare for action in the event of an emergency.
